

# Training in regulatory practice that **REDUCES HARMS**

Expert facilitators | Customised content

## The Ethos CRS approach

**In a rapidly changing environment, governments face the challenge of regulating to minimise harms with as light a touch as possible.**

Ethos CRS has the knowledge and expertise to help you regulate better. We work with regulatory experts to offer training, coaching and advice that is timely, within budget and on point.

To do this, we offer a set of sequenced workshops that equip regulatory staff with the skills to do complex work better. All content is customised to organisational needs and priorities, and all workshops are delivered by experts who understand both regulatory problems and their solutions.

### Workshops and interventions include:

- Core concepts in regulation
- Risk-based regulation
- Effective regulatory writing
- Decision-making and regulatory discretion
- Administrative law
- Monitoring, compliance and evaluation
- Enforcement awareness
- Licensing, assessments and approvals
- Crisis preparedness and response
- Regulatory advice and guidance
- Negotiation skills
- Stakeholder engagement
- Public communication for regulatory staff
- Statutory interpretation
- Freedom of information laws
- Optimal regulation
- Performance evaluation
- Regulatory design and development
- Regulatory strategy
- Leading as a regulator
