

Why should your business invest IN TRAINING?

Increase your productivity

Effective training increases productivity, and an increase in productivity means saving money.

If 15 officers who earn roughly \$70,000 a year attended a workshop run by Ethos CRS which resulted in just a 1% increase in productivity, your company would benefit by \$42,188 over 4 years.

Ethos CRS provides a 'productivity calculator' on our website so you can calculate just how much training will benefit you.

00 INITIAL TRAINING
-\$3,850

01 END OF YEAR 1
+\$8,622
With a \$12,472 benefit from productivity increase

02 END OF YEAR 2
+\$21,094
With a \$12,472 benefit from productivity increase

03 REFRESHER COURSE IN
YEAR THREE
+\$29,716
\$12,472 benefit - \$3,850 reinvestment

04 END OF YEAR 4
+\$42,188
With a \$12,472 benefit from productivity increase
